## **Proficiency-based Grading Workshop**

---

This one- or two-day workshop introduces a standards-based approach to grading in today’s world-language classroom. Based on students’ proficiency levels and the main content standards in foreign languages, this approach to grading attempts to pair more accurately a student’s abilities in the language with a tangible grade required by most schools and universities. This grading method also increases student learning and achievement by more precisely pinpointing in which skills a student excels and where they may need some improvement.

## **Powerful PQA Workshop**

---

This one-day workshop is for teachers of all levels who wish to maximize the use of the target language right from the first day of school.

By utilizing the techniques detailed in this workshop, you, too, can take personalized questions to the next level, maximize student engagement, and effectively teach the hundreds of thematic vocabulary words included in textbooks, all while staying in the target language.

## **Accurate & Effective Assessment Workshop**

---

In this one-day workshop, participants will learn how to make their assessments more effective by targeting specific learning outcomes and limiting the variables to make each assessment more accurate.

Less is more when it comes to assessment. Participants will learn how to get more out of each assessment requiring less assessments overall and how to spend less time grading and more time teaching in the classroom.

## **Fast & Easy Writing Assessment Mini-Workshop**

---

This is a one-hour mini-workshop on how to do timed-writings effectively in your classroom and how to grade them quickly and efficiently without spending hours of your personal time.

## **Fast & Easy Speaking Assessment Mini-Workshop**

---

This is a one-hour mini-workshop on how to do Group Speaks™ effectively in your classroom and how to assess speaking quickly and efficiently without sacrificing hours of class time.

## **Successful Storystrips Mini-Workshop**

---

This is a one-hour mini-workshop demonstrating how to "ask" a story using 4- or 6-frame picture sequences.

## **"Kindergarten Day" Mini-Workshop**

---

This one-hour mini-workshop explains how to effectively use children's books to interest and engage students in the language while making it comprehensible and fun.

## **Games in the Second-Language Classroom Mini-Workshop**

---

This is a one-hour mini-workshop on a multitude of different games that are highly effective for reviewing vocabulary and structures.

## **Textbook to TPRS®: How to Adapt a Textbook to Storytelling Mini-Workshop**

---

This is a one-hour mini-workshop detailing highly effective steps to taking the wide scope of a textbook chapter, distilling it to the essential vocabulary, structures, and culture, and turning these essentials into an effective TPRS® curriculum.
